61st Wyoming Legislature ★ 2011 General Session

HB0012, Irrigation districts-change of place of use.

Sponsors: Joint Agriculture, State and Public Lands and Water Resources Interim Committee

Comments

Sets a process for dealing with the water rights associated with land taken out of ag production.

While it does not seem necessary to create a law for something that seems logical and that when making a law you cannot foresee every circumstance, this law makes the change of irrigation rights more flexible and supportive of property (water right) owners.

Weighted Rating: 0.50. Unweighted Rating: 0.50.
