### **Comments**

Adds some synthetic cannabinoids and other materials to the controlled substances list. Some repeals. Changes licenses from annual to biennial. More drug hysteria. End the war on drugs, and legalize the damn things. As bad as drugs are, prohibition has done far more damage.

It is not the role of government to protect citizens from themselves, but to secure their rights from infringement from others. Furthermore this state, the Great State of Wyoming, does not need to follow the federal government in any area which it is not given responsibility in Article 1 Section 8 of the United States Constitution. Anything not in Section 8 is a state issue.
