61st Wyoming Legislature ★ 2011 General Session

HB0071, Seat belts-evidence in civil actions.

Sponsors: Representative(s) Stubson, Berger, Brown, Illoway and Roscoe and Senator(s) Case and Dockstader

Comments

Modifies the rules of evidence regarding the use of seat belts in civil actions. It tends to reduce liability for not wearing one, so it is pro liberty. A minute diminution of the nanny state.

If I as an individual attempted to force another person to wear a seat belt I would be out of line and infringing on another's rights. So why do a group of legislators think they, collectively, have more power or rights than we as individuals whom they represent?
