## **HB0149, Marriage-definition.**

Sponsors: Representative(s) Connolly, Childers, Petroff and Zwonitzer, Dn. and Senator(s) Rothfuss

### **Comments**

Get government out of one of the most important private decisions one can make.

Marriage between any combination of individuals other than a man and a woman does not make sense religiously nor biologically. But, the main point here is that marriage is an unalienable right and is not to be legislated. The definition should be determined by a person's religion or local customs. The government has nothing to do with a right. It can only try to usurp control of this right for monetary gain or control over the people. The question is not how a marriage is defined, it is that government should not in any way be involved in the definition.
