61<sup>st</sup> Wyoming Legislature ★ 2011 General Session

## **HB0169, Sales tax on food-local option.**

Sponsors: Representative(s) Greear, Petroff and Wallis and Senator(s) Burns

### **Comments**

Allows county sales taxes on food. Would someone please drive a stake through the heart of food sales taxes!

When the tax of food, a necessity of life, was removed, that was a good thing. Now, someone thinks we need more taxes so lets go back to taxing essentials for life, that is not good. No tax should be levied on anything necessary for a person to exist if he or she could not pay the tax. Next, let's get rid of property tax.
