61<sup>st</sup> Wyoming Legislature ★ 2011 General Session

## **HB0173, Public nuisance-yaks.**

Sponsors: Representative(s) Zwonitzer, Dn., Blake, Brown, Davison, Eklund, Gingery and Semlek

### **Comments**

Adds yaks to cats and dogs as "animals" for the purposes of "public nuisances". Who knew there was a yak problem in Wyoming?

Really! Do you have to define everything. If something is a nuisance it is a nuisance, however, then we should include all farm animals that I can hear (horses, cows, chickens, mules are especially irritating). This is an agricultural culture and these animals, including yaks, are part of someone's livelihood. Are we going to use force to determine how a person can gain their livelihood.
