61st Wyoming Legislature ★ 2011 General Session

HB0181, Wage rates-penalties.

Sponsors: Representative(s) Connolly, Davison, Greene, McKim and Throne and Senator(s) Hastert

Comments

Adds penalties for late payment of back minimum wages and authorizes investigations. The minimum wage should be abolished as contributing to unemployment, and violating the rights of individuals to contract as they see fit.

Let's start a dictatorship, we'll force everyone to be fair and we'll control all business by the government because we know best. Or, we could let the people decide under what conditions they want to work and which businesses they will support. This bill is just more regulation.

Weighted Rating: -1.00. Unweighted Rating: -1.00.
