61<sup>st</sup> Wyoming Legislature ★ 2011 General Session

## **HB0201, Health care qualifications and advertising.**

Sponsors: Representative(s) Pedersen, Edmonds and Wallis and Senator(s) Emerich and Landen

### **Comments**

Micromanages the content of ads for medical professionals. While we are in favor of transparency and truth in advertising, why not let the smart medical people do it on their own instead of forcing them? And what's wrong with the existing remedies for fraud?

If this were a bill protecting against fraud or misrepresentation it might be okay but this imposes requirements that forces a person to do certain actions, taking away the responsibility of the client and making them further dependent on government to insure their safety and well-being.

Weighted Rating: -1.00. Unweighted Rating: -1.00.
