Comments

Requires instruction on the Constitution in government schools on each Sept. 17th. Nice idea, but the content of the instruction will be produced by the government school bureaucracy. Right.

This bill is a sad commentary on our school system in Wyoming. We should not have to designate the study of the Constitution on a specific day. Every student should study the Constitution thoroughly and know the principles of it and know when those principles are being violated. This is not happening and the decline of those principles that made us the Greatest Nation in history are being lost.
