Comments

Phases out local determination of graduation requirements, calls for a study on how to set graduation requirements. It doesn't seem very responsible to phase out the current system until you know what its replacement will be.

The function of this bill is to make sure that the State of Wyoming complies with the Federal guidelines so we will be insured to receive our dole payments. The Federal government has no place in Education. Education is not one of its limited powers. Why do we keep up a dysfunctional, tyrannical system?
