61st Wyoming Legislature ★ 2011 General Session

HB0244, Unemployment insurance amendments.

Sponsors: Representative(s) Connolly and Senator(s) Hastert

Comments

Extends unemployment for educational purposes. Makes it available if the applicant was forced out of a job by certain circumstances not currently covered, such as sexual abuse and caring for an immediately family member. Unemployment should not be an arm of social welfare or political correctness.

Pres. Grover Cleveland said, "While the people should support the government, the government should not support the people." The government does not own a living to anyone and should not be involved in guaranteeing one to anyone. That is what is called SOCIALISM.

Weighted Rating: -1.00. Unweighted Rating: -1.00.
