Nay votes: Representatives Connolly

Comments

Another toothless resolution calling on the state and federal government to respect private property rights. Given some of the other legislation in this session, this is hypocritical.

This resolution is a welcome recognition of the importance of property rights. It would have been stronger if it were a bill that would require action by the State of Wyoming (possibly against the national government) not just a resolution.

Weighted Rating: 0.50. Unweighted Rating: 0.50.
