

Wyoming Liberty Index

61st Wyoming Legislature ★ 2011 General Session

SF0044, Government competition.

Sponsors: Senator(s) Case and Nutting and Representative(s) Wallis

Comments

Provides a mechanism for citizens to lodge complaints of governments engaged in competition against private enterprise.

First, government should never be in the production business and second if they ever happened to be they absolutely should not compete with a private business.

This is the kind of law that can make a big difference, even though it seems innocuous.

Weighted Rating: 1.33. Unweighted Rating: 1.00.
