61st Wyoming Legislature ★ 2011 General Session

SF0049, Denturists.

Sponsors: Senator(s) Geis and Scott and Representative(s) Quarberg and Zwonitzer, Dn.

Comments

Legalizes practice by denturists. That's the good news. The bad news is it then puts them under the same government regulated oligopoly that other professions use to limit consumer choice.

This is another imposition of regulation established through a board (non-elected) and from the executive branch. It is another way to raise revenue and control citizens in the name of protecting them. It makes them dependent on government instead of protecting their rights and takes away responsibility from the individual decreasing his independence.

Weighted Rating: -0.50. Unweighted Rating: -0.50.
