

Wyoming Liberty Index

61st Wyoming Legislature ★ 2011 General Session

SF0078, Temporary instream flows.

Sponsors: Senator(s) Case

Comments

Allows the state to purchase temporary in stream flows. Wyoming has one of the worst records of in stream flow water rights (useful for conservation) because it does not allow private holders of in stream flows. This is a step in that direction.

Weighted Rating: 1.00. Unweighted Rating: 1.00.
