61st Wyoming Legislature ★ 2011 General Session

SF0122, Water rights-federal lands.

Sponsors: Senator(s) Hicks and Driskill

Comments

Where certain water rights are issued on federal land the water rights will be in the name of the leaseholder or a local government. Prohibits water rights in the name of the feds, which is fine, but also in the names of individuals or organizations (Other than leaseholders) that may be concerned with wildlife. A wash on good vs. bad.
