### **Comments**

Call this "The Bailout for Incompetent Health Care Facilities Managers Act". It is a bail-out bill, pure and simple. Also, it says that the governor shall determine the source of the funds, not the legislature. This provision violates the principle of separation of powers. Appropriates \$2,000,000.00 to start.

The government does not own the people anything nor is it to take care of the people, only protect its rights, not ensure health and happiness, just the freedom to gain it if they will work for it. Socialism ensures health and wealth to all but taking from some and giving to others. And it is against the Wyoming constitution to give loans (Article 16 Section 6).

Weighted Rating: -1.50. Unweighted Rating: 1.00.
