61st Wyoming Legislature ★ 2011 General Session

SF0126, Water-beneficial use.

Sponsors: Senator(s) Hicks and Driskill

Comments

Provides a definition of the term "beneficial use of water", and reserves to the legislature the authority to make or change that definition. The definition is a laundry list of 42 items, one of which is "Miscellaneous", i.e. anything not in any of the other 41. Why bother?
