61st Wyoming Legislature ★ 2011 General Session

SF0136, Water-source of supply.

Sponsors: Senator(s) Meier and Hicks and Representative(s) Brown and Semlek

Comments

Requires the state engineer to only consider "credible, accurate site specific data" in certain water rights findings. Probably a move toward science based engineering.

Weighted Rating: 0.00. Unweighted Rating: 0.00.
