62<sup>nd</sup> Wyoming Legislature ★ 2014 Budget Session

## **HB0075, Motorcycles-passage through intersections.**

Sponsors: Representative(s) Kroeker

### **Comments**

Motorcycles may not trigger some triggered traffic signals. This allows motorcycle operators to proceed after appropriate precautions. (Heck, there are times when a car doesn't trigger such devices. But that's another bill. See WS 31-5-403)

N: No fiscal or personnel impact. This bill addresses the needs of a minority that has been oppressed by the advance of technology. The advisability of the approach is certainly debatable, but it does address the needs of an oppressed minority. A better approach might be to simply require all light signals at intersections to cycle every two minutes or so whether their sensors detect bicycles or motorcycles at the intersection or not.

Weighted Rating: 1.50. Unweighted Rating: 1.00.
