62nd Wyoming Legislature ★ 2014 Budget Session

HB0100, Investigative subpoenas.

Sponsors: Representative(s) Zwonitzer, Dv. and Krone

Comments

Creates "investigative subpoenas". These are a feature of the Napoleonic Code used in France, Italy and other European countries where there is no presumption of innocence. This is not something we want in a legal system grounded in English law with respect for individual rights.

N: No fiscal or personnel impact. This does appear to address a valid gap in the Wyoming statutes. Altho it may be needed, it is still an increase in the police power of the state so we'll call it liberty neutral.

Weighted Rating: -1.50. Unweighted Rating: 1.00.
