62<sup>nd</sup> Wyoming Legislature ★ 2014 Budget Session

## **HB0116, Towing company regulation.**

Sponsors: Representative(s) Jaggi and Senator(s) Cooper

### **Comments**

Another non-consensual towing bill. See also HB 29. More regulation! The rotation list is probably a good idea, but do we need the rest of this regulatory red tape?

U: The proposed bill will have an indeterminable, but significant fiscal impact of an expenditure increase on the Wyoming Department of Transportation (WYDOT). This bill is a bit of a mixed bag. On the positive side, it appears to provide for a more equitable allotment of towing jobs to towing companies, and a minimum standard of towing service. On the negative side, it adds to the volume of the Wyoming Legal Code and increases governmental costs. It is not clear that the current system is sufficiently broken to justify spending more money for an unclear improvement.

Weighted Rating: -0.50. Unweighted Rating: -0.50.
