Signed by the Governor.

### **Comments**

An administrative code requiring a code of state regulations (similar to the Code of Federal of Regulations but with better cross-linking and historical tracking) available at no charge over the Internet. Also provides for more structure rule making. One for transparency, if nothing else.

A: This bill contains an appropriation of \$692,063 from the STRATEGIC INVESTMENTS AND PROJECTS ACCOUNT to the Secretary of State. This bill provides for development of an administrative code and data base system that is intended to save money in the long term, standardize an administrative code for State government and improve government transparency for the People. The purpose is commendable from a Liberty viewpoint, but as a government program we'll have to see if the result matches the promise.

Weighted Rating: 1.00. Unweighted Rating: 1.00.
