

Wyoming Liberty Index

62nd Wyoming Legislature ★ 2014 Budget Session

HB0143, Health information study.

Sponsors: Representative(s) Barlow, Harvey and Lubnau and Senator(s) Rothfuss and Schiffer

Comments

Creates a health information system task force to to study the idea of a health information system. Don't look now, but this is an ACA exchange by another name. Further, if it really is benign, let private enterprise do it.

A: This bill contains an appropriation of \$35,000. This appropriation will be expended for payment of salary, travel and per diem. As a data collection and brainstorming effort this appears innocuous. What our crystal ball can't tell us is if the recommendations will be destructive to Liberty or Liberty-enhancing.

Weighted Rating: -1.00. Unweighted Rating: -1.00.
