62<sup>nd</sup> Wyoming Legislature ★ 2014 Budget Session

## **HB0158, Indecency.**

Sponsors: Representative(s) Jaggi, Davison, Gingery, Halverson and Krone and Senator(s) Craft

### **Comments**

Moves what used to be public indecency into private circumstances. This is very subjective.

N: No significant fiscal or personnel impact. This bill expands the definition of indecency. Brilliant! Now it doesn't even have to be done in public. Now all you have to do is offend someone, or know that you could offend someone. Sounds like something a politically correct abusive prosecutor would love!
