

Wyoming Liberty Index

62nd Wyoming Legislature ★ 2014 Budget Session

HB0163, Game and fish-restitution values.

Sponsors: Representative(s) Gingery

Comments

Sets maximum amounts for restitution to the state for illegally taking game and wildlife. This is a good idea as it would prevent a run-away Game and Fish Department.

U: The fiscal or personnel impact is not determinable. This bill places a ceiling on punitive damages that may be imposed for game animals destroyed in the process of violating Game & Fish laws and regulations. Placing limits on government is always Liberty-enhancing.

Weighted Rating: 1.00. Unweighted Rating: 1.00.
