62nd Wyoming Legislature ★ 2014 Budget Session

HB0174, Merit career-technical scholarships.

Sponsors: Representative(s) Hunt

Comments

More "picking the winners", more corporate welfare. Let the market settle these issues.

A: This bill contains an appropriation of \$50,000 from the GENERAL FUND to the Legislative Service Office. This bill establishes a merit career-technical education student scholarship endowment fund and associated program. Insofar as equality under the law is one of the cornerstones of Liberty, we'll give this a positive rating since it attempts to put technical job candidates on some degree of financial equality with college-bound students. On the negative side, it does make State government a bit bigger and more complicated.

Weighted Rating: 0.00. Unweighted Rating: 0.00.
