62nd Wyoming Legislature ★ 2014 Budget Session

SF0002, The Jason Flatt Act.

Sponsors: Joint Education Interim Committee

Comments

We have nothing against suicide prevention. We think it's a great idea. The problem here is that this bill adds to the non-classroom duties of faculty without reducing non-classroom duties commensurately. Eventually, if all the do-gooders in the legislature get their way, all the faculty time will be taken up with training for some worthy cause or other, and they will have not time to spend in the classroom. This is typical of the short-sightedness of this legislature.
