62<sup>nd</sup> Wyoming Legislature ★ 2014 Budget Session

## **SF0036, Education-student data security.**

Sponsors: Select Committee on Statewide Education Accountability

### **Comments**

Puts into statute a requirement that the director of the department of education develop a data security plan for student assessment and other data (SLDS, e.g.). What a concept, actually thinking about privacy and data security. Mind you, the final plan might or might not be very good, but at least this bill would require them to think about it.
